

**MEGAMAS TRAINING COMPANY
SDN BHD**

COMPANY PROFILE

THE BEGINNING

Megamas Training Company Sdn Bhd (Megamas) was incorporated in December 1989 to provide Health, Safety and Environment (HSE) training.

With over twenty years of experience, Megamas is the first integrated safety training establishment in Negara Brunei Darussalam, with facilities covering 15 acres in Mumong, Kuala Belait in Brunei Darussalam.

Megamas is in a unique position within the services industry; as HSE training and consultancy is our core business, this independence allows Megamas to avoid conflicts of interest easily, for example in issuing certificates of competency.

WORLD CLASS

With a strong combination of local commitment and global expertise, Megamas is acknowledged as one of the leading training providers in the region with a track record for quality courses and world-wide recognition and achievement.

Its core business includes HSE training & services supplied to:

- Brunei Shell Petroleum Company Sdn Bhd
- Brunei National Petroleum Company Sdn Bhd
- Total E&P Borneo B.V
- Brunei Methanol Company Sdn Bhd
- Brunei Governments
- International and Local Contractors

SUBSIDIARY

Megamas has offices in Kiulap, in the capital of Brunei Darussalam, and is headquartered in the Belait district.

A branch office has been recently opened in Singapore.

MEGAMAS CONSULTANCY SERVICES

Megamas uniquely offer a range of specialist Health, Safety and Environmental Consulting Services. We can offer such a diverse mix of services due to our excellent resources and highly experienced, competent staff.

For enquiries, please email us at info@megamas.com or call +673 332800 or visit us at www.megamas.com for more information.

DEVELOPMENT OF HSE MANAGEMENT SYSTEM

Health, Safety and Environmental Management is essential in all businesses. By implementing an effective HSE-MS you will benefit from having an effective policy, legal compliance, improved management of risk and reduced costs associated with accidents and illnesses. Megamas can assist you to develop and implement an effective HSE-MS.

ACCIDENT INVESTIGATIONS / ROOT CAUSE ANALYSIS

Effective accident investigation is not only a moral and legal duty; it also represents sound commercial sense. Identifying and addressing the root causes of accidents can prevent other types of future incidents. A thorough investigation of an accident is also a positive visible demonstration of your commitment to safety. Megamas can help you to identify and assess a wide range of evidence to determine both the immediate and underlying factors of the accident. A detailed report will be produced that describes the incident cause together with a prioritised action plan to prevent a reoccurrence.

TRANSPORT ASSESSMENT

People struck by moving vehicles such as delivery trucks, forklifts, cars and vans are a common workplace accident. Segregating pedestrians from vehicles throughout the workplace is the key to reducing accidents. Megamas can help your company by carrying out an on-site transport assessment. The service is suitable for all worksites where there are moving vehicles, e.g. car parks, depots, warehouse, deliveries, etc. The consultant will provide you with an action plan explaining how traffic arrangements can be improved.

OIL & GAS CONSULTANCY SERVICES

For over 20 years Megamas has been providing Health & Safety solutions to the Oil & Gas Sector. Megamas are committed to high standards and have been running OPITO approved courses for many years. For consultancy services we can carry out detailed Permit-to-Work audits, undertake site visits, prepare JHA's, risk assessments, procedures, development of databases and CBT packages.

BESPOKE RETAINED CONSULTANCY PACKAGES

Retained Consultancy packages are where a client agrees to a number of days support over an agreed time period e.g. 12 months, thereby attracting discounted rates. The packages offer a varying degree of support, uniquely tailored to each client to help businesses improve health, safety and environmental performance. The packages could include, for example: Health & Safety Reviews, Environmental Reviews, Auditing, Management System Development & Updating, ISO 14001, OHSAS 18001, Occupational Hygiene Monitoring, Risk Assessment, Development of Policies & Procedures, and Incident Investigation.

MEGAMAS TRAINING COURSES

Effective training provides skills and knowledge to your employees. Training helps your organisation to reduce accident rates and meet your legal requirements.

Our trainers ensure that all learning needs are taken into account for our delegates.

For enquiries, please email us at info@megamas.com or call +673 332800 or visit us at www.megamas.com for more information.

NEBOSH INTERNATIONAL GENERAL CERTIFICATE

The International Certificate is the most popular qualification in Health and Safety. The course creates a focus on management systems and best practice in the context of international standards in Health and Safety, rather than reliance on local legislation. It provides a broad base of knowledge on which a base level of competence in occupational health and safety can be developed.

IOSH MANAGING SAFELY

The Managing Safely course is designed for managers and supervisors of any organisation or sector. Full of step-by-step guidance and with a sharp business focus. You will find that the innovative format will give you a good basis in Health and Safety.

DEFENSIVE DRIVING

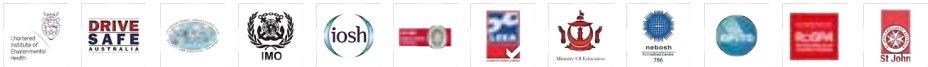

Our defensive driving courses aim to provide you with the knowledge and skills necessary to undertake driving duties in a safe, courteous and responsible manner. High quality videos, handouts and practical sessions enable delegates to understand the requirements for safe driving.

HELICOPTER UNDERWATER ESCAPE TRAINING

The HUET course prepares participants for helicopter travel and for escape from a helicopter that has come down in the sea. The course also includes in-water confidence building exercises for participants with limited or no swimming ability. This course is approved by the Offshore Petroleum Industry Training Organisation (OPITO).

FIRST AID

In the event that someone becomes injured it is vital that the injured party receives First Aid treatment as soon as possible. Megamas offer a range of First Aid courses which can teach you how to save lives. The courses provide participants the skills and knowledge to be able to deal with the injuries most likely to occur in everyday life. Upon successful completion of practical and theory assessment, a certificate of competency is issued. This course is internationally recognised.
